Edi Makes a Kite
Jennie Hamlin, Didiek Kartiarso
Liz Fazakarley

letsreadasia.org
Edi wants to play with a kite, but he doesn’t have enough money to buy one. He reads a book about how to make a kite.
Edi gets strips of wood, a hammer, and some nails to build his kite with.
Edi uses his hammer and nails to join the strips of wood. He’s careful not to hit his fingers with the hammer!
Edi makes the frame of the kite. He knows that kites have four triangles in their shape.
Edi gets paper and colored pencils. He colors the triangles: blue, red, yellow, and green.
The four triangles look great! Then Edi uses the hammer and nails to connect the colored triangles to his kite frame.
After that, Edi makes a tail for his kite. He cuts ribbons to add to his kite’s tail.
Edi’s kite is looking great with the ribbons on the tail.
Edi reads the book again. He needs to tie some string to his kite.
Edi’s kite has a long string attached. Now his kite is ready to fly.
Edi goes outside and flies his kite! He is very happy!
