

Sharanya Speaks to Robots

Author: Tanvi Bhat

Illustrator: Tanvi Bhat

Hello, everyone!
Please welcome our
new student, Robu.

Sharanya wants to be friends with Robu.

But he doesn't seem to understand her.

Hi

Helloooo
ooooooooo
ooooooooo
ooooooooo
ooooooooo!

Oyeeeeeeeeeeeeeeeeee

HELLO!

வணக்கம்

సమవృత్త

నమస్కార

సమస్కారం

కూడా?

నమస్తే

**Why won't you
talk to me!**

Then, all of a sudden, Sharanya has an idea.

Sharanya codes a message for Robu.

Robu's brain reads the code and he finally replies.

How to Code a Robot

The brain of a robot is a computer.

To communicate with computers and give them tasks to do, we need to know how to speak their language.

The code-based language that computers understand is called a programming language.

And the person who writes code to communicate with machines is called a programmer. There are many programming languages to help us talk to computers.

Some of them are C, C++ and Java.

Would you like to talk to computers too?

Sharanya Speaks to Robots

(English)

The new student in school won't talk to Sharanya, no matter how hard she tries. Why doesn't he understand her? Can Sharanya find a way to talk to him?

This is a Level 3 book for children who are ready to read on their own.

Pratham Books goes digital to weave a whole new chapter in the realm of multilingual children's stories. Knitting together children, authors, illustrators and publishers. Folding in teachers, and translators. To create a rich fabric of openly licensed multilingual stories for the children of India and the world. Our unique online platform, StoryWeaver, is a playground where children, parents, teachers and librarians can get creative. Come, start weaving today, and help us get a book in every child's hand!
