

The Little Plant

Author: Radha Rangarajan

Illustrator: Aindri C

Level 1

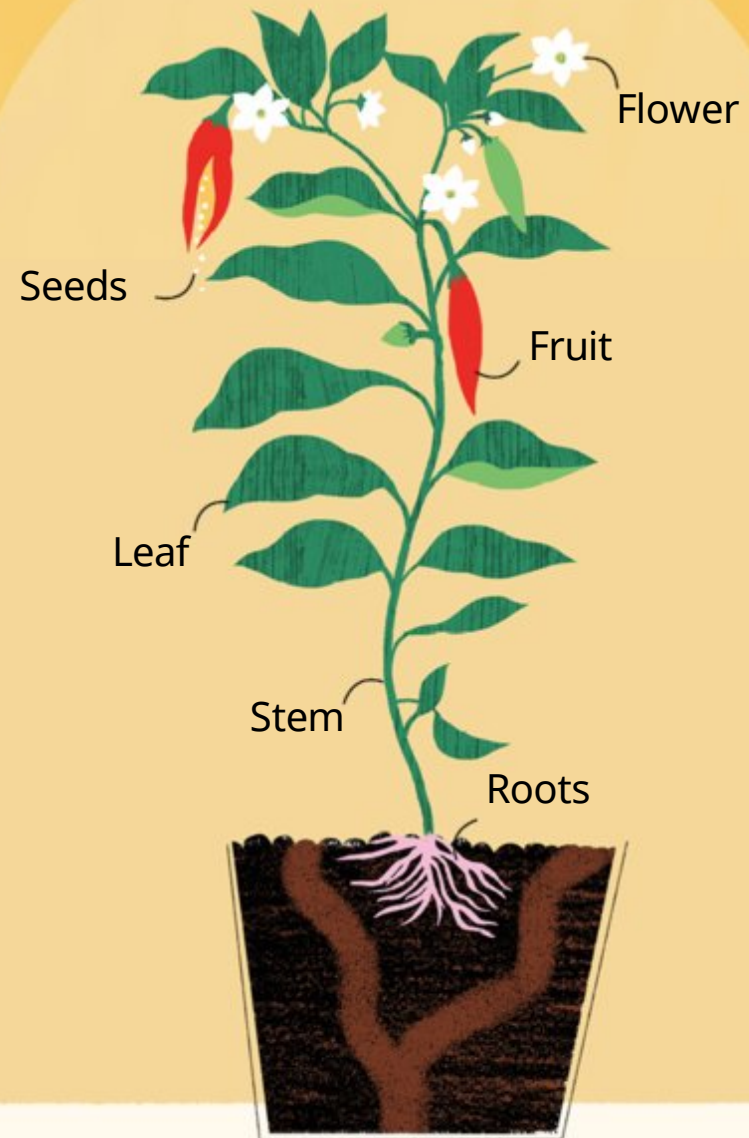

Parts of a plant

Look at a plant closely. Its roots are below the soil. Its leaves, flowers and fruits grow on the stem, above the soil. Here are the main parts of a plant:

All plants are home to many forms of life like worms, insects and spiders.

Ants and Aphids are often seen together on plants.

Earthworms live around the roots and keep the soil healthy.

Leafcutter Bees use pieces of leaves to build their nests.
