

# Animal Homes

**Author:** Ashwitha Jayakumar

**Illustrator:** Nafisa Crishna

Level 1

Animals live all around us.

Birds build their homes up high.

And so do bees.

Spiders spin  
their homes.

Tiny termites build  
tall, tall homes.

Snails and tortoises grow  
homes on their backs.

Fish live in the water.

Frogs can live in water and on land.

Rabbits and rats live in  
burrows under the ground.

Monkeys and apes make  
trees their homes.

Bears and wolves live in dens.

Crocodiles live in swamps.

Deer live in forests.

And so do tigers!

## One Large Home

Some animals live close to us and  
some live far away.

But do you know what we have in  
common with all the animals of the  
world?

We all build our homes in one large  
home: **planet Earth!**
